PRESSURE DISTRIBUTION

The fully integrated Swing Catalyst system gives you a better understanding of your golf swing by showing how your feet are experiencing pressure from the rest of your body being in motion. This means that you can easily spot whether you are leaning too far back, forward, left or right at any part of the swing.

ALL SYNCHRONIZED IN ONE PLACE.

The Full Swing simulator, balance plate data, high definition video, and intuitive software tools are perfectly synchronized to provide a complete overview of your swing in motion.
